Craig

I can advise staff that opens the park. It's department policy that all gates, especially t-bar gates, must be secured in the open position for safety purposes.

As for potential situations of persons locked in, we can summon LAFD if rangers have an extended eta

I'll communicate with LAPD SSD division to be on the look out on how they find the lock mechanism when locking the gate at night.

Happy Thanksgiving to you and yours.

First a thank you again to all who handled the lights being fixed in De longpre park, and for the night ranger who is always consistent in closing the park by 10:30 pm nightly.
Hope you all had a nice Thanksgiving.

Please remind the opening staff that the chain to the right gate must be secured open by locking the lock onto the welded stabilizing chain hanging from the Park wrought iron fence.

Today it was not open.

There is a resident that lives on Cherokee who somehow has a key to the gate , If you would like to call to discuss this as he also could be The culprit, let me know.

I am going to peruse this further as it effects all the struggle we went through to keep the gates from being closed by dog owners who have no regard for the handicap neighbors inability to get in and out of the park if they are constantly shut by people refusing to accept this is not a designated dog park. Again, this could easily become a cory liability if someone is handicapped or in danger inside the park as. Cannot get out in time.

With appreciation,
Craig

Hi Sophia,

Thank you for bringing this to my attention, I have included Lt. Raymond Lucas and the other supervisors on our night watch that oversee the officers on the Gate Closure program. As for locking individual in the park after securing the gates, can you send me the photos that were mentioned in the emails.

Thanks
